

## **Course Fees for Aviation Minor Labs for 2014-15**

### **SYST 462 – First Lab, Course Fee of \$4979**

Includes:

- 22 hours of flight time in one of: 3 Cessna 172s, a Cessna 152, a DiamondDA-20 or the new Cessna C-162 SkyCatcher. The students can chose which one of these 6 planes they prefer to train in.
- 32 Hours of Instructor time.
- 1 Pilot's Logbook.
- Headset rentals through lab 1 training. (If the student chooses to purchase a headset, \$90 will be applied toward their purchase of a headset)

### **SYST 463: the Second lab, Second Solo through Private Pilot Certification - \$5380**

Includes:

- 30 hours of flight time in the same choice of plane in which the student completed first lab (SYST462).
- 20 hours of Instructor time.
- 1 E6B Aviation Computer.
- 1 Aviation Plotter.
- 1 Current Washington Sectional Chart
- Headset Rental through lab 2 training. (If the student has a headset, they will receive an extra 0.7 hours of solo flight time).

Other expenses the student will incur not included in the course fees:

- Medical Certificate, about \$85
- FAA Knowledge Test Fee, about \$140. This test should be completed shortly after the completion of the Ground School.
- Practical Test Fee, about \$400.
